

CRIF EXPORT

Turn your Excel loan books into **CRIF Highmark**—ready bureau submission files — in seconds, error-free.

Commercial UCRF

MFI CDF V2.0

Consumer UCRF-12

Byte-exact & validated

Pricing quotation prepared for

Your Organisation

Credit-bureau reporting eats hours every cycle — staff hand-stitch Excel into the bureau's rigid layout, a single misplaced character gets the whole file rejected, and the fix means debugging spreadsheet formulas instead of running the business. **Vidyasetu CRIF Export** takes the workbooks your accountants already maintain and produces **upload-ready CRIF Highmark files** — Commercial, MFI and Consumer — with a plain-language validation report that tells your team exactly what to fix, in the source sheet, before anything is filed.

Your Quotation

● CRIF EXPORT — ANNUAL BUNDLE ★ ALL-INCLUSIVE

Unlimited reporting for your operation

₹**1,20,000** / year

≈ ₹10,000 / month · billed annually · all portals included

Covers: all your reporting entities across every portal, on a weekly (or more frequent) cycle — generation, validation, and the accountant-style workbook report, with no per-file charges.

WHAT'S INCLUDED

- **All three bureau formats** — Commercial, MFI & Consumer, one tool
- **All portals & entities** — every reporting unit, one flat price
- **Unlimited generations** — weekly cycles or ad-hoc, no metering
- **Runs on your own machine** — desktop tool + local portal, no cloud bill
- **Validation report included** — staff fix data in the source, not the file

💡 **Flat annual price — no per-file or per-report charges, no surprise overages within your normal reporting volume.**

How It Works

1

Bring your Excel

Use the workbooks your accountants already

2

Generate

One engine assembles the exact bureau layout —

3

Validate

A clear report flags every issue so staff fix the source

4

Upload

Download the byte-exact file (and workbook report)

maintain — or our ready-to-fill templates.

header, per-borrower segments, computed trailers.

data before filing.

and upload to the CRIF portal.

What You Get ✔ INCLUDED IN YOUR ANNUAL BUNDLE

Commercial UCRF

Business / corporate loans → pipe-delimited bureau file

Consumer UCRF-12

Retail / individual loans → coded-field file

Byte-exact output

Validated against CRIF's own sample files

Workbook report

Accountant-style multi-sheet working file per submission

Unlimited cycles

Weekly, monthly or ad-hoc — no per-file fees

Your data stays yours

Files generated for your upload — no third-party sharing

MFI CDF V2.0

Microfinance loans → fixed-width + segment file

Works with your sheets

Real-world flat master sheets, not just rigid templates

Validation report

Mandatory / format / enum / length checks, all at once

Web portal

Pick format, drop a file, download the result — no install

Runs on your machine

Desktop tool + local portal — no server to rent or run

Format upkeep

Spec changes from the bureau folded in over time

Why Vidyasetu CRIF Export

Doing it manually / by spreadsheet	With Vidyasetu CRIF Export
Hours of hand-formatting per cycle	Seconds per file
Files rejected for a single bad character	Byte-exact, bureau-validated output
Errors found only after the bureau rejects	Caught up front, in a plain-language report
Each format a separate manual effort	Commercial, MFI & Consumer in one tool
Knowledge locked in one person's spreadsheet	Repeatable, hosted, maintained for you

Investment

Item	Price
CRIF Export — Annual Bundle (all formats, all portals, unlimited generations, hosted)	₹1,20,000 / year
Onboarding & format mapping	Included
Setup on your machines & updates	Included
New / custom bureau format (optional)	Quoted per scope
Hosted portal URL (optional)	Included on request

 **Why it pays for itself:** one rejected bureau submission can cost a full reporting cycle in rework and a compliance risk. A flat ₹10,000/month removes both — your team files clean, on time, every cycle, across every entity and portal, with no per-file

Launch Offers

Free Onboarding

Format mapping + setup for your sheets included at no extra cost.

Annual Lock

Lock today's price for Year 1 — no mid-term increases.

Pilot Run

We generate your first live submission set with you, hands-on.

Format Add-on Credit

First custom format spec at 50% off within Year 1.

Excel in. Bureau-ready out. Validated, byte-exact, every cycle.
